EXPERIENCE

Consultation and Reservation Website for the Optometrist

- Developed an Optometrist Consultation and Reservation Website using HTML, CSS, JavaScript, and XAMPP, featuring patient appointment booking, slot availability, and data management via MySQL and PHP.
- Created an admin panel for streamlined booking management, improving both patient experience and operational efficiency.

RoboGuardenGuard - Thesis (Functionality)

- Developed functionality using Python for image processing and TensorFlow for training datasets.
- Designed to enhance security measures through effective image analysis, detection, and monitoring capabilities.

Tic-Tac-Toe Game - Python (Jupyter Notebook)

- Developed a Tic Tac Toe game using Python in a Jupyter Notebook.
- Implemented game functionality with a class to manage the board, handle player moves, and check for winners or a draw.
